Bonn, 16.03.2018
valid until: 16.03.2019

Gerald Feigenbutz
General Manager

Peter Czajkowski
Chairman of the Quality Committee

The company may use the registered mark  as well as the icon "profile extrusion" as shown above, for marking and promoting the above listed profiles as part of their public relations work.

The **white uPVC profiles** have positively passed the type test acc. to **Technical Appendix Section I, part 1** to RAL-GZ 716.

The company has committed to ensure compliance with the Technical Appendix and to subject the production of the registered profiles to regular quality control by a neutral inspection body.

The tested profiles shall be used as components in quality assured uPVC window profile systems. Note: the profiles alone do not justify to carry the RAL-quality mark for uPVC window systems.

The validity of this certificate can be verified on the website www.gkfp.de.
